

# Checkback

## By Responder After Opener's 2NT Jump Rebid

Presented by Mike Savage

When you have a hand too big to open 1NT but not quite big enough to open 2NT and you are the opening bidder, you very often will have to open one of a minor, planning to rebid 2NT over a 1-level response by partner. There are two hands that you might **not** choose to rebid 2NT. The 1<sup>st</sup> is the hand when your partner responds one of *your* 4-card major. Now you simply bid four of that major, showing a balanced hand (no singleton or void) with enough values for game and 4-card support.

The 2<sup>nd</sup> hand is when your partner responds one heart and you have four spades. You don't want to give up on a 4-4 spade fit but usually you want the bigger hand to bid no-trump first and a one or two spade bid might result in partner being declarer in a no-trump contract. Also, if you bid two spades, what kind of hand do you have? Are you balanced or not? The following is a good way to check for eight-card major suit fits after a 2NT rebid; there are other approaches as well.

1. **1C or 1D 1H 2S**: Either sequence shows at least four, usually five, of the minor  
**1C 1D 2H or 2S**: and at least four of the major (either 4-5<sup>+</sup> or a three-suiter).  
**1C or 1D 1H 2NT**: Shows a big balanced hand that may contain three hearts, four spades or both.  
**1C or 1D 1S 2NT**: Shows a big balanced hand that may contain four hearts, three spades or both.
2. After a 2NT rebid by opener over responder's one-of-a- major response (all bids are forcing): Bidding three of opener's minor shows at least four-card support & either slam interest in the minor or a shapely hand with support and doubt about playing in no-trump or a fit in the minor along with a 5-card major. Bidding the unbid minor asks opener to show 4-cards in the other major and failing that, to show 3-card support for the bid major. If you show four cards in the other major and he now bids 3NT that means he has a five-card major and you can bid four of the major with 3-card support. This method finds a 4-4 major fit even when you have a 5-3 fit.

### Examples:

**1C P 1H P**

**2NT P 3D P**

**3S**: Shows four spades, may have three hearts.

**1D P 1H P**

**2NT P 3C P**

**3H P 3NT**: Shows four spades and only four hearts.

**1C P 1S P**

**2NT P 3D P**

**3S**: Shows three spades, denies four hearts.

**1D P 1S P**

**2NT P 3C P**

**3NT**: Denies three spades or four hearts.

**After one of a minor – 1 of a major – 2NT** (all bids over 2NT are forcing):

**3 of opener's minor** = Shows at least a 4-card fit, is forcing and may have a five-card major.

**3 of responder's major** = Shows all hands with 3-card support for responder's major.

**3 of a new suit** = Cue-bid with minor suit slam interest and denies 3-card major support.

**3NT** = To play without slam interest; denies 3-card major support or stopper problems.

**3 of bid major** = Shows at least a six-card suit and slam interest.

**3NT** = Denies A, K or Q in the major.

**4 of a lower suit** = Shows A, K or Q in the major & is lowest cue bid.

**4 of the major** = Shows two or more of the top three honors in the major bid.

**3 of the other minor** (denying a four or more card fit for opener's minor) followed by:

**3D** (when available) = Shows a good five or six-card minor and denies a major fit.

**3 of responder's major** = Shows 6-cards in the bid major, 4 in the other.

**3 of the other major** = A 3-card diamond fit with some slam interest.

**4D** = Roman Key-card for diamonds.

**4C** = Natural with a long suit and has slam interest.

**3 of responder's major** (showing a three-card fit) followed by:

**4 of the other minor** = Natural with a long suit and has slam interest.

**4 of the other major** = Maximum with minor fit.

**4 of responder's major** = To play: minimum

**4NT** = Maximum, without 3-card plus minor fit.

**4 of opener's minor** = Artificial; balanced slam try in responder's major.

**4 of bid major** = To play.

**4NT** = Roman Key-card for the bid major.

**4NT** = Roman Key-card for the bid major.

**4S** (over **3H**, showing three) = Shows 4-4 in majors & is slam invitational.

**4NT** = Roman Key-card Blackwood for the bid major.

**3NT** followed by: **4 of opener's minor** = Shows slam interest with 6-4 in the majors.

**4 of the other minor** = Natural with a long suit and has slam interest.

**4 of the unbid major** = Stiff with 3-card support for opener's minor.

**3H** (after **1 of a minor – 1S – 2NT**) = Shows at least 5-5 or longer in the majors.

**3S** (after **1 of a minor – 1H – 2NT**) = Shows at least 6-5 or longer in the majors.

**4C** = Gerber.

**4H** or **4S** (four of responder's major) = These bids are to play with no slam interest whatsoever.

**4NT** = Natural and invitational.
